

# Antenna 100991

## GSM antenna

### Specifications:

Antenna type:	Portable GSM quadband antenna with improved ground plane, especially made for wireless applications
Frequency range:	824-960 MHz / 1710-1990 MHz
Impedance:	Nom. 50 Ohm
Polarisation:	Vertical
Gain:	0/0 dBd
VSWR:	< 2.0 at freq.res. (both bands)
Max. Power:	10/5 W
Colour:	Black
Length:	Approx. 52 mm
Weight:	Approx. 10 g
Mounting:	On transceiver, modem case etc.
Material:	PE, copper, brass and Teflon
Connector:	FME (female)
