HQM CONNECTOR

Hinge type Board-to-board Connectors

Hinge type board to board connectors which allow mated PCB's to move 90° in respect to one another while electricity is turned on. The hinge compensates for slight misalignments between circuit boards to assure a secure connection even if the boards are out of line up to 0.5mm. Thus design and circuit checks can be as easily made as opening a door.

Features

• **Hinged connection**

With hinge construction, the HQM connector features flexibility. Thus this board to board connector allows mated PCB's to move 90° in respect to one another while electricity is turned on.

• **Flexible connection by absorbing circuit board misalignment**

The hinge compensates for slight misalignments between circuit boards to assure a secure connection even if the boards are out of line up to 0.5mm. Thus design and circuit checks can be as easily made as opening a door.

• **Connector halves can be mated after mounting on circuit boards**

Connector halves can be mated after mounting on circuit boards. The boards can then be rotated 90°. This will ease equipment maintenance by allowing access to tight spaces.

Specifications

- Current rating: 1.0A AC, DC
- Voltage rating: 100V AC, DC
- Temperature range: -25°C to +85°C
(including temperature rise in applying electrical current)
- Contact resistance: Initial value/40m Ω max.
After environmental testing/60m Ω max.
- Insulation resistance: 500M Ω min.
- Withstanding voltage: 500V AC/minute
- Applicable PC board thickness: 1.6mm
- * RoHS compliant products are published.
- * Refer to "General Instruction and Notice when using Terminals and Connectors" at the end of this catalog.
- * Contact JST for details.

Note:

1. Tolerances are non-cumulative: $\pm 0.05\text{mm}$ for all centers.
2. Hole dimensions differ according to the kind of PC board and piercing method. The dimensions above should serve as a guideline. Contact JST for details.
